Partnership in
Grants Management

ASAP Control Detail Accounts

Sachin Marwah, IT Specialist

*Software Support Branch, Office of the Chief Financial Officer,
Financial Systems Division*

CONNECTING the CHANNELS

Objectives

1. Gain a high level understanding of ASAP Control Detail Accounts and NOAA's recent implementation
2. Learn the importance of the Account Detail Profile Inquiry in conjunction with payment requests in ASAP.gov for Control Detail Accounts for NOAA awards
3. Know where to access NOAA's full training on Control Detail Accounts

CONNECTING the CHANNELS

Background

- The changes in ASAP impacted the Federal government bureaus. Recipients were not impacted by the Treasury mandates
- ASAP did not introduce new account types with this change. The DoC historically only used one of the available account types for its awards
- Due to the changes in the reporting requirements and related complexities, NOAA chose to begin using a different account type in ASAP for new awards. However, additional development was required in order to effectively use the other account type. Those changes were implemented in February 2015

ASAP Account Types

- **An ASAP Account Type:**
 - Can be either:
 1. Regular
 2. Control Detail
 - ***Cannot be modified*** - Once an account type is established on an award it must remain throughout the life of the grant and cannot be changed
- **Existing Awards:**
 - NOAA Awards received on or before 2/13/2015 remain Regular Accounts in ASAP.gov
 - Payment requests remain the same – there are no changes
- **New Awards:**
 - Awards received on or after 2/17/2015 will appear as Control Detail Accounts in ASAP.gov¹
 - Payment requests will require selecting Detail Account ID(s) for funds withdrawal

¹Exception:

New Cooperative Institute (CI) Awards will continue to appear as Regular Accounts in ASAP.gov

CONNECTING
the CHANNELS

Control Detail Accounts

- Treasury requires Detail Account ID(s) on each Control Detail Account
- The Detail Account ID(s) must be unique within each award (no two Detail Account ID(s) can be the same on a single award)
- Each Detail Account ID may be up to 30 characters in length
- A Cumulative Draw Limit is associated with each Detail Account ID. The Cumulative Draw Limit indicates the maximum funds that can be drawn from the Detail Account ID. The sum of all Cumulative Draw Limits is the total amount authorized on the award. Note this should not be confused with the amount of the Grant itself. The amount authorized will be less than or equal to the amount awarded

Detail Account ID

- Each bureau determines the values to populate in the Detail Account ID(s)
- NOAA will populate the Detail Account ID(s) to aid the Recipient in determining which Detail Account ID to select when more than one exists on an award
- Detail Account ID(s) will consist of 4 segments separated by dashes
- Detail Account ID(s) should be reviewed starting with the first segment and then looking at each subsequent segment of the Detail Account ID when more than one exists on the award

NOAA Detail Account ID Nomenclature

Example: MARINE MAMMALS-X-001-001

1. Descriptor (20)
2. Fund Type indicator (1)
3. Grants Online Amendment Number (3)
4. Grants Online Accounting Line Number on the Amendment (3)

- The Descriptor contains a brief description related to the work performed to aid the Recipient when requesting payments
- There are 3 possible values for the Fund Type indicator: “R”, “T”, or “X”

In the event there are two or more Detail Account ID(s) on an award with the same Descriptor, then review the Fund Type indicator to determine which order to request funds:

- Detail Account ID(s) with “R” in the second segment should always be drawn **first**
- Detail Account ID(s) with “X” in the second segment should always be drawn **last**

- Segments three and four are used in the event there are two or more Detail Account ID(s) with the same values in Segments one and two. When the Descriptor and Fund Type are the same on more than one Detail Account ID, then make payment requests based on the lowest Amendment number first

Multiple Detail Account ID(s) Example 1

Single "Descriptor"		
	Grants Online Order (as added to Award)	ASAP.gov Sort Order
1.	MARINE MAMMALS-X-000-001	MARINE MAMMALS-R-001-001
2.	MARINE MAMMALS-T-000-002	MARINE MAMMALS-T-000-002
3.	MARINE MAMMALS-R-001-001	MARINE MAMMALS-X-000-001

Notice how the "R" appears first and the "X" appears last in ASAP.gov. This is the default sort in ASAP.gov that NOAA intentionally leveraged to help recipients forcing Detail Account ID(s) with "R" funds at the top of the list when two or more Descriptors are the same. **Draw the funds from the fund type "R" first when two or more Detail Account ID(s) have the same Descriptor. Draw the funds from fund type "X" last.**

Multiple Detail Account ID(s) Example 2

Multiple “Descriptors”		
	Grants Online Order (as added to Award)	ASAP.gov Sort Order
1.	SALMON RECOVERY ACT-T-000-001	COUNCIL COMMISSION-X-000-002
2.	COUNCIL COMMISSION-X-000-002	COUNCIL COMMISSION-X-002-002
3.	SALMON RECOVERY ACT-R-001-001	MARINE MAMMALS-T-002-001
4.	MARINE MAMMALS-T-002-001	SALMON RECOVERY ACT-R-001-001
5.	COUNCIL COMMISSION-X-002-002	SALMON RECOVERY ACT-R-002-003
6.	SALMON RECOVERY ACT-R-002-003	SALMON RECOVERY ACT-T-000-001
