Before requesting this acquisition, state the statutory authority for conducting this acquisition under "other than full and open competition" procedures in the following blank \_\_\_\_\_ (use only one statutory authority). Also provide a narrative justification to this form. In accordance with FAR Subpart 6.3, the narrative justification must include the facts necessary to reasonably and legitimately lead to the use of the specific authority for other than full and open competition; including adequate information on the nature and/or description of the action being approved and a description of the supplies or services required to meet the agency's needs.

Use of this form is optional when: the justification contains all information required by FAR 6.303-2, is certified by the requisitioner and contracting officer and is approved at the appropriate levels.

### STATUTORY AUTHORITY

**41 USC 3304(a)(1) - Only one responsible source and no other supplies or services will satisfy agency requirements.**

The supplies or services required by the agency are available from only one responsible source and no other type of supplies or services will satisfy agency requirements.

**41 USC 3304(a)(2) - Unusual & compelling urgency**

The agency's need for the supplies or services is of such an unusual and compelling urgency that the government would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits bids or proposals. (NOTE: This authority will not be approved if it is determined that the urgency is due to a lack of advance planning by the requiring activity. Solicitation from as many potential sources as is practicable under the circumstances is required.)

**41 USC 3304(a)(3) - Industrial mobilization; engineering, developmental, or research capability; or expert services**

It is necessary to award the contract to a particular source or sources in order (a) to maintain a facility, producer, manufacturer, or other supplier available for furnishing supplies or services in case of a national emergency or to achieve industrial mobilization; (b) to establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center; or (c) to acquire the services of an expert or neutral person for any current or anticipated litigation or dispute.

**41 USC 3304(a)(4) - International agreement**

The terms of an international agreement or a treaty between the United States and a foreign government or international organization, or the written directions of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services for such government, have the effect of requiring the use of procedures other than competitive procedures.

**41 USC 3304(a)(5) - Authorized or required by statute**

A statute expressly authorizes or requires that the acquisition be made through another agency or from a specified source, or the agency's need is for a brand-name commercial item for authorized resale.

**41 USC 3304(a)(6) - National security**

The disclosure of the agency's needs would compromise the national security unless the agency is permitted to limit the number of sources from which it solicits bids or proposals.

**41 USC 3304(a)(7) - Public interest**

The agency head (Secretary of Commerce) determines that it is not in the public interest to use full and open competition in the particular acquisition concerned, and notifies Congress in writing of such determination not less than 30 days before award of the contract.
